RED STAG OF WORLD-CLASS

WHERE THE ADVENTURE BEGINS
20,000-ACRE RESERVE IN LA PAMPA

///

RUT SEASON: MARCH TO APRIL
NON-RUT SEASON: MAY TO JULY

Located in the heart of La Pampa province, our reserve and hunting grounds provide an unmatched environment for big game hunting.

Our lodge has become one of Argentina's most prestigious hunting destinations.

With over 20,000 acres, the reserve offers hunters the chance to pursue world-class trophies in a completely natural setting, ensuring every hunt is a truly unforgettable experience.

///

TROPHY QUALITY

In our reserve, you'll have the opportunity to hunt fully mature red stags. We apply careful management to avoid the hunting of younger animals, which allows us to offer stags that impress every year with their size and exceptional quality.

Not only will you find remarkable red stags ranging from 400 to 750 SCI, but you'll also witness herds of hinds with their calves in a natural habitat.

Additionally, you'll have the possibility to hunt multiple stags during your stay, with many hunters returning home with more than one trophy at the end of their trip.

RED STAG FREE RANGE

OVER 30,000 ACRES OF FREE-
RANGE IN THEIR NATURAL STATE

///

Our free-range hunting area stands out for the outstanding quality of its trophies in a truly wild environment. With more than 30,000 acres of open land, you'll have the chance to harvest stags ranging from 270 to 350 SCI, with no score limit.

Guided by experts who know every corner of the terrain, you'll enjoy an exciting and authentic hunt with multiple shooting opportunities.

This experience ensures you'll return home with an unforgettable trophy.

FREE RANGE
SEASON:
MARCH TO APRIL

WATER BUFFALO

TAKING A SHOT AT A 2,200
POUND BUFFALO FROM
JUST 50 YARDS AWAY

THE BIGGEST IN ARGENTINA

Weighing over 2,200 pounds (1,000 kilos), the buffalo is Argentina's heaviest and most dangerous wild animal. Being less than 40 yards (45 meters) away is a truly unique thrill. At Rancho Salvaje Safari, we offer an open hunting area where you can experience an unforgettable adventure. Early in the morning, we set out on foot, observing the herds and solitary bulls in search of a massive trophy. Once spotted and selected, your guide will lead you on a stalk to get within 100 yards (90 meters) of the buffalo.

BLACKBUCK

A CHALLENGE FOR HUNTERS

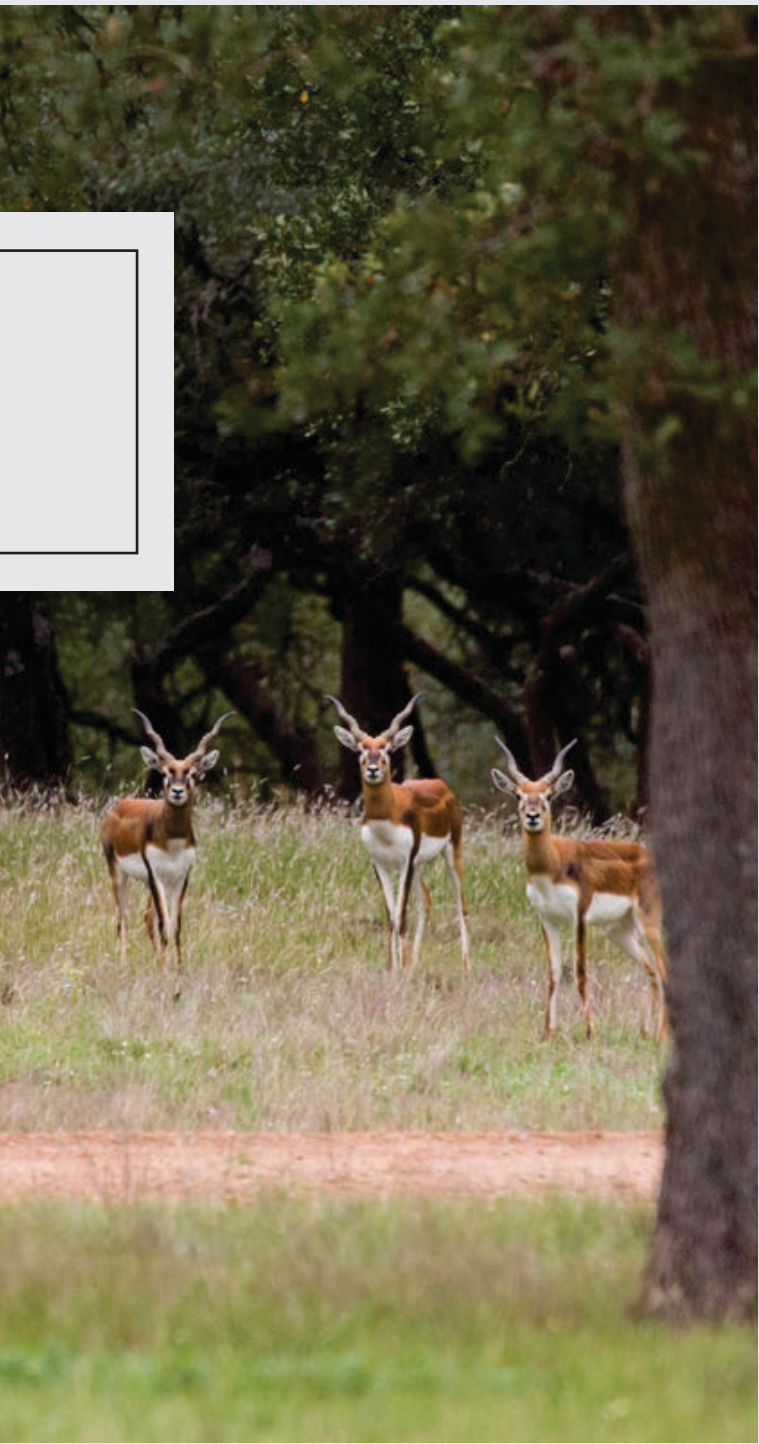

///

The great abundance of blackbuck allows us to spot more than one outstanding specimen each day.

You will witness herds of hundreds, making it a true challenge to get close enough for a shot.

We have truly incredible trophies, and you won't want to end your hunt with just one.

FALLOW DEER

HUNTING WORLD-CLASS TROPHIES

///

SEASON:
MARCH
TO JULY

///

A DISTINCTIVE ROAR

Fallow deer hunting takes place in the vast forests of La Pampa. The season runs from March to July, but it is in April when you can hear their distinctive roar.

You will have the opportunity to hunt trophies ranging from bronze, silver, and gold medals, as well as specimens in various colors: dark brown, spotted, or white.

Without a doubt, it is one of the most beautiful and thrilling hunting experiences you can have.

AXIS DEER

A TRUE HUNTER'S CHALLENGE

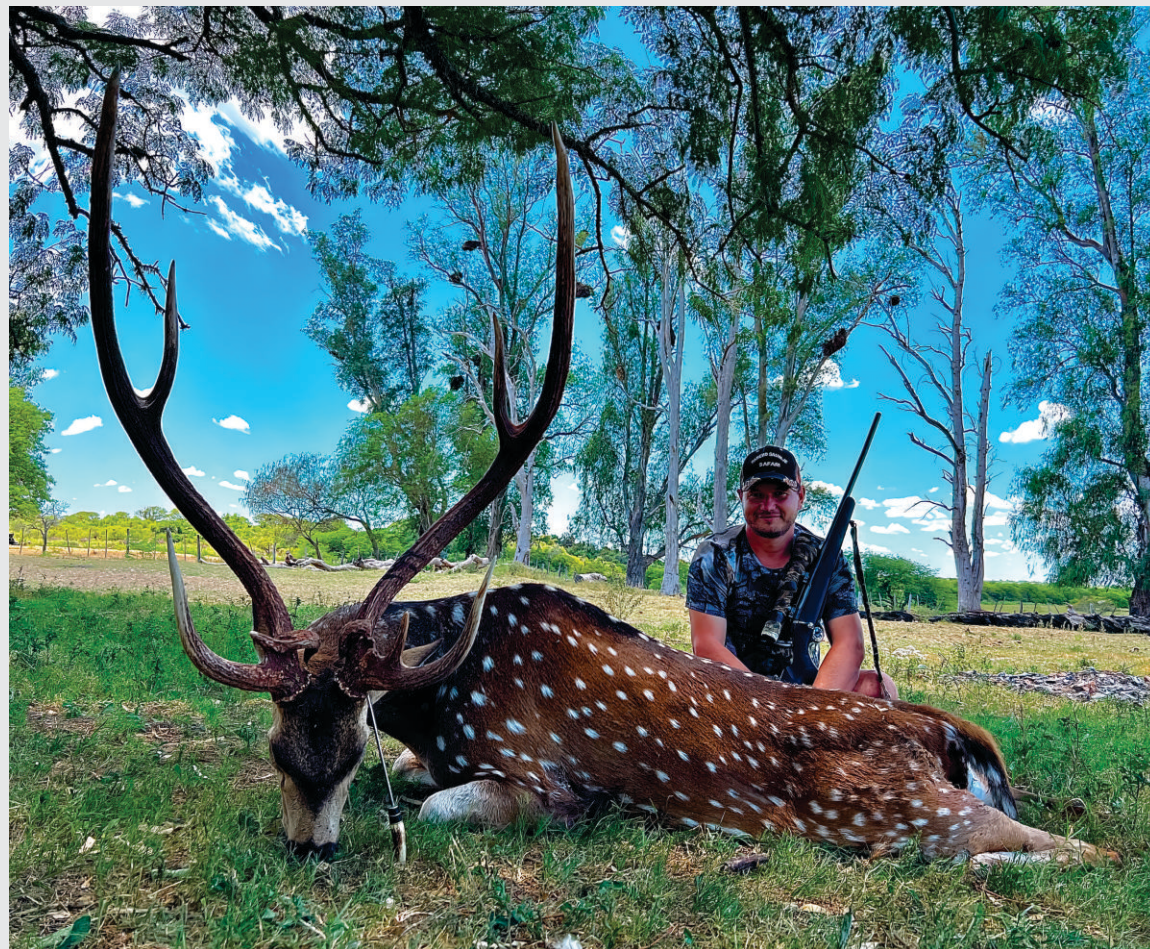

///

We offer two incredible hunting areas where you can experience the thrill of hunting these impressive animals. The hunt takes place in vast woodlands, where tracking the axis deer is a real challenge. Their calls are very sporadic, usually only once every hour and a half, which makes them even harder to locate.

We have exceptional specimens, including gold, silver, and bronze trophy animals.

We guarantee an unforgettable hunt, not only for the challenge it presents but also for the beauty of the surroundings and the overall experience.

TO JULY

MOUFLON

AN AUTHENTIC HUNT IN ARGENTINA

///

The mouflon is one of the most challenging animals to hunt in Argentina. Thanks to the crashing sound of rams clashing their horns, it is sometimes possible to locate them—though it is never an easy task, and that is where the adventure begins.

They are often found in large herds within the forests, making a close approach difficult. However, once you identify them, the excitement is indescribable: before you stand impressive world-class trophies, worthy of the finest hunters.

EXOTICS

RAM / FOUR HORN / WILD GOAT /
PATAGONIA MOUFLON

///

WHICH ONE WILL YOU GO FOR?

In our exclusive hunting areas, you will continuously encounter a wide variety of species. Among them are groups of mature and young rams, as well as Four Horn males, which are usually found alone and isolated.

You may also come across wild goats, whose large males, much like the Four Horns, remain separate from the larger groups. Another highlight is the Patagonia Mouflon, very similar to the European mouflon but with a noticeably darker coat and the same impressive horns.

ALL YEAR
ROUND

EXTREME WILD BOAR HUNTING

10 TROPHIES ARE JUST THE
BEGINNING OF THIS ADVENTURE

///

SEASON:
ALL YEAR
ROUND

///

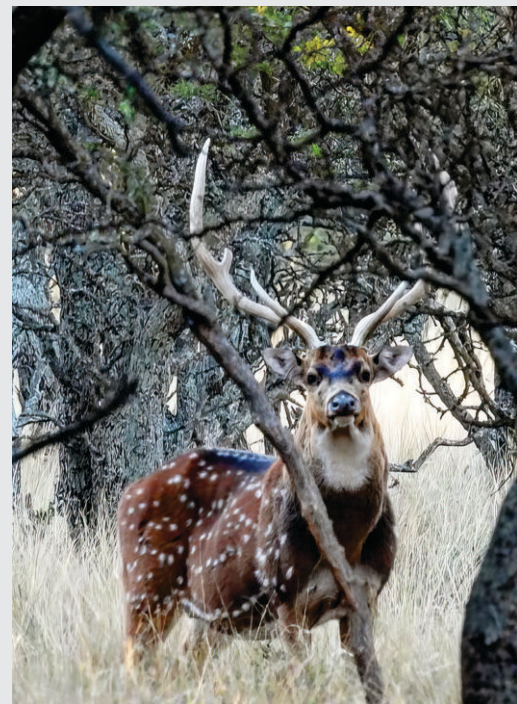

Wild boar hunting in Argentina takes place across different regions.

In La Pampa, we offer exceptional areas where, as night falls, you can spot and hunt large males, often with the chance to take down several in a single outing.

In Buenos Aires, we have a unique area for wild boar hunting, which can be done on horseback, by quad, or on foot during the day. This region stands out for its high density of wild boar, considered a pest, and it is common to harvest more than 10 gold-medal trophies in a single afternoon.
